EUROPEAN COMMISSION

DIRECTORATE-GENERAL FOR AGRICULTURE AND RURAL DEVELOPMENT

Directorate B. Quality, Research & Innovation, Outreach The Director

Brussels, PP/sn/agri.ddg1.b.4(2019)3617728

Thank you for your e-mail of 25 April 2019 (Int. Ref. ARES (2019)2805348) asking whether your product "Growcoon" which is a biodegradable plant plug could obtain the organic logo.

To address your question, I refer to Regulation (EC) No 834/2007¹ laying down the general rules on organic production and labelling. In particular, Article 1(2) lays down the scope of the organic legislation in the following terms: "This Regulation shall apply to the following products originating from agriculture, including aquaculture, where such products are placed on the market or are intended to be placed on the market:

- (a) live or unprocessed agricultural products;
- (b) processed agricultural products for use as food;
- (c) feed;
- (d) vegetative propagating material and seeds for cultivation.

The products of hunting and fishing of wild animals shall not be considered as organic production."

Consequently, "biodegradable plant plugs" are not in the scope of organic legislation and cannot be certified as organic under Regulation (EC) No 834/2007 nor be labelled or advertised using the EU organic logo.

The present opinion is provided on the basis of the facts as set out in your e-mail of 25 April 2019 and expresses the view of the Commission services and does not commit the European Commission. In the event of a dispute involving Union law it is, under the

Council Regulation (EC) No 834/2007 of 28 June 2007 on organic production and labelling of organic products and repealing Regulation (EEC) No 2092/91. http://eur-lex.europa.eu/legal-content/EN/TXT/PDF/?uri=CELEX:02007R0834-20081010&qid=1396976187958&from=EN

Treaty on the Functioning of the European Union, ultimately for the European Court of Justice to provide a definitive interpretation of the applicable Union law.

Yours sincerely,

Nathalie SAUZE- VANDEVYVER
