Subject: Assessment of ozone as post-harvest treatment of plant products

Dear Mrs Brobbel,

Thank you for your e-mail sent on 19 December 2012 and concerning the use of ozone in organic production. In particular, from the documentation arrived we understand that you would support the use of ozone as post harvest treatment of organic plant products.

As you know this technique is scheduled for a possible evaluation by the Expert Group for Technical Advice on Organic Production and in particular by a specific Sub-group on Food.

Yours sincerely,

Jean-François HULOT
